2020 LAW ENFORCEMENT SUPPORT GUIDE

Law enforcement officers across the country has faced unprecedented challenges this year, ranging from grappling with a global pandemic to upholding the law in the face of violent riots and hate from radicals.

When you go to the polls this November, remember the heroic officers who stand between real American citizens and radical, dangerous, violent activists who are trying to overturn our Democracy. Get the facts, stay informed, and VOTE to support police officers.

Keep these issues in mind when you cast your ballot:

Restore Respect for Police Officers

Politicians continue to use law enforcement officers as pawns in their petty political schemes. Left-wing anarchists and violent extremists are jumping at the opportunity to use this as an excuse to attack and disrespect officers. We need to ensure that our elected officials respect police officers and keep them safe as they work to protect us. Make sure that those who **assault and demean officers are held accountable!**

Support Politicians and Judges who Support Police

Elected, partisan judges need to hold criminals accountable and impose proper sentences, especially for repeat offenders. Weak judges embolden criminals, who know they can get away with literal murder. We need to support current and former LEOs that are running for elective office because they understand the rigors of the job and will rightfully uphold the law to keep criminals off the streets.

Funding for Training and Equipment

Realistic training and appropriate equipment is required in order for law enforcement officers to perform at their best. We need capable officers able to approach any situation and take the necessary action. Ensure your local departments have the funding to continue to train and hone their expertise.
